**Tagline:** “*Bridging Academia with Industry Experience*”

### Introduction:

Skill development has become an essential component of higher education as it equips students with the competencies required for personal and professional growth. Educational institutions play a crucial role in organizing various training programs to enhance the knowledge, skills, and attitudes of students. Such programs enable students to develop problem-solving abilities, teamwork, leadership qualities, and effective communication skills, which are highly valued in the modern workplace.

### Objectives of the Program:

The main objectives of the skill development program were:

- To enhance students’ practical skills.
- To improve communication and professional abilities.
- To prepare students for industry requirements.
- To develop confidence and personality among students.

## Event Proceedings:

The AI & Employability Skills Training Program for BBA and BCA students was conducted from 17th February 2026 to 28th February 2026. The program focused on introducing students to the basic concepts of artificial intelligence and essential employability skills required in today's job market. The sessions included discussions on AI tools, resume preparation, communication skills, and interview readiness. The program was interactive and provided students with practical insights into the use of AI and professional development.

## Student Participation:

The program received active participation from BBA and BCA students. Students showed great interest in learning about AI tools and employability skills. They actively engaged in the sessions through discussions and interactions, which made the program effective and informative.

## Conclusion:

The AI & Employability Skills Training Program was successful in enhancing students' awareness of AI technologies and career-oriented skills. The training helped students understand the importance of developing both technical and professional skills for future employment.
